N.B. No appointments are needed in August as we have extra staff in the shop.

Normal hours resume Wednesday 8th September.

2. School Uniform Lists

Please find attached 2010 lists for uniform and sports kit. Pupils must wear black socks only from September and boys must now only wear black polo shirts. A **black** thermal base layer has been added to the list as this is now a well established part of sports kit.

3. New Rugby Shirt

We are introducing a new rugby shirt for September 2010 – the boys can wear this shirt for rugby and football, with or without a thermal base layer. The new style shirt is reversible, washes and dries easily and will not become water logged on a wet day. Designed using KWC school colours, these shirts are very distinctive and smart.

The cost of these shirts will be £40 for non-VAT smaller sizes and £46 for other sizes; although the cost is slightly more than the older rugby shirts, the combined costs of buying a rugby and football shirt is higher, therefore we feel that this is the most practical move to ensure our boys play rugby and football in suitable clothing.

There will be a year's wear out period for the old style shirt and this can be worn for school lessons and training, however if your son plays in a school team he will need the new shirt from September 2010.

The old shirts have been reduced in price in the School Shop if you need extra rugby kit for a keen rugby playing son.
